## **BURIAL INSURANCE BENEFIT ASSIGNMENTS**

Please be advised that it is the enforcement position of the Office of Insurance Commissioner that a funeral home, or a funeral director acting in his/her capacity as such, cannot be designated as the beneficiary of a life insurance policy used to fund preneed burial contracts. Therefore, all individual life insurance policies should provide for beneficiaries other than the aforementioned concerns. Payment of benefits under an individual life insurance product or annuity used to fund a preneed burial contract may be accomplished through the use of an assignment. To that end, the Office of Insurance Commissioner has provided a "Burial Insurance Benefit Assignment Form" to ensure compliance with the above position.
