THE LICENSURE PROCESS

Licensure is the process by which an agency of state government or other jurisdiction grants permission to individuals to engage in the practice of, and prohibits all others from legally practicing a particular profession, vocation, or occupation. By ensuring a minimum level of competence, the licensure process protects the general public. The state regulatory agency is responsible for establishing the acceptable level of safe practice and for determining whether an individual meets that standard.

The State of West Virginia has retained the services of Pearson VUE to develop and administer its insurance licensing examination program. Pearson VUE is a leading provider of assessment services to regulatory agencies and national associations.

PRACTICE TESTS

Practice tests are offered exclusively online at www.pearsonvue.com, giving candidates even more opportunity to succeed on insurance examinations. Our practice tests will not only help prepare candidates for the types of questions they will see on the licensure exam, but also familiarize them with taking computer-based examinations.

Pearson VUE offers practice tests in the areas of Life, Health, and Property and Casualty that contain questions developed by subject matter experts using concepts found in the general portion of the licensure examination. The tests closely reflect the format of the real licensure examination, can be scored instantly, and provide immediate feedback to help candidates identify correct and incorrect answers. Candidates can purchase practice tests anytime at www.pearsonvue.com.

ADJUSTER LICENSE

Pre-licensing education **is not** required of adjusters.

West Virginia now separates the company and independent adjuster. There are three license types with multiple line of authority. Below are the definitions.

A **Company Adjuster** is an adjuster who is a staff employee of an insurance company, who is paid by the insurance company, and who investigates, negotiates, or settles claims.

An **Independent Adjuster** is an individual, a business entity, an independent contractor, or an employee of a contractor, who contracts for compensation with insurers or self-insurers. They are one whom the insurer's or self-insurer's tax treatment of the individual is consistent with that of an independent contractor, rather than as an employee, as defined in the Internal Revenue Code, United States Code, Title 26, Subtitle C; and investigates, negotiates, or settles property, casualty, or workers' compensation claims for insurers or self-insurers.

A **Public Adjuster** is a person who, for compensation or any other thing of value on behalf of the insured, acts or aids, solely in relation to first-party claims arising under insurance contracts that insure the real or personal property of the insured, on behalf of an insured in negotiating for, or effecting the settlement of, a claim for loss or damage covered by an insurance contract.

BAIL BONDS - no prelicensing or continuing educations required for Bail Bonds. Candidates will need a Property and Casualty or Limited Lines Surety designation.

To learn more about each, go to www.wvlegislature.gov/Bill_Text_HTML/2020_SESSIONS/RS/bills/HB4502%20ENR.pdf.

West Virginia Resident Applicants

A legal resident of West Virginia **must** apply as a resident adjuster. To apply, applicants must submit to the West Virginia Insurance Commissioner the following:

1. Completed Adjuster Application
2. Original Pearson VUE Passing Score Report
3. **The license fee is \$50 and renews every two years based in applicants birth month.** Check should be payable to the West Virginia Insurance Commissioner.

Nonresident Applicants

A legal resident of a state other than West Virginia **must** apply as a nonresident adjuster. To apply, applicants must submit to the West Virginia Insurance Commissioner the following:

1. Completed Adjuster Application
2. Original Pearson VUE Score Report (Nonresident applicants whose home state does not license adjusters may choose West Virginia as their designated home state after they pass the West Virginia Adjuster's examination)
3. **The license fee is \$50 and those designating West Virginia as the home state will need continuing education hours.** Check should be payable to the West Virginia Insurance Commissioner.

BAIL BONDS

The bail bond exam for both professional and surety bail bond applicants will be effective July 1st, 2024. The exam is the same for professional and surety bail bond applicants. The bail bond exam consists of 30 questions with a passing score of 80%. Each applicant will have 90 minutes to complete the exam. Reminder, to obtain a **Surety** bail bond license the applicant will also need to apply for and receive a producer license with a property and casualty line of authority or a producer license with a limited lines surety line of authority. To obtain a **professional** bail bond license the applicant will need to provide approved collateral from the West Virginia Offices of the Insurance Commissioner.

WEST VIRGINIA EXAM PROCEDURES

Test Center Identification Requirement

Candidates will satisfy the test center identification requirement by presenting at the test center on examination day two forms of signature identification, one of which must be photo-bearing.

Candidates taking Life, Accident and Health or Sickness, Property and Casualty, and Personal Lines must also present a Certificate of Pre-licensing Course Completion (Form PL 789E) to be admitted to the test center. (Course completion certificates are valid for six (6) months.)

In many instances the student is required to absorb large amounts of information in a short period of time, and topics covered may not be explained to the complete satisfaction of the student. Students who memorize "catch phrases" and definitions but lack the understanding to **apply** the knowledge to a set of circumstances that differ from those used by their instructor will find many of the state examination questions difficult. For these reasons, education provided by an approved school should **not** be considered complete preparation for the state examination.

A review of previously studied material, preferably presented from a different point of view, can only help strengthen the student's understanding. Supplemental study in the form of a company training course, private vendor's programmed learning course, practical experience, topical review with industry peers, or study and review time away from the classroom or in addition to an approved correspondence text/workbook are recommended to enhance a person's chances of passing the licensing examination. The absolute best blueprint to follow in selecting topics of study is the content outline.

FINGERPRINT AND CRIMINAL HISTORY REQUIREMENTS

All applicants seeking resident West Virginia Insurance licenses will be required to submit fingerprints for the purpose of conducting a state and federal criminal background check.

This applies to all resident applicants wishing to obtain a major line of authority or, amending their existing license by adding a major line of authority for the following Insurance license types:

Exemptions from fingerprinting are:

- Limited Lines
- Adjusters (***fingerprints are now required of resident adjusters and those designating West Virginia as the home state***)
- Nonresident licensees (***unless West Virginia is listed as the home state***)
- Producers who received their license before June 1, 2015, unless they are adding a line of authority on or after June 1, 2015.

ACCOMMODATIONS

Pearson VUE complies with the provisions of the Americans with Disabilities Act as amended. The purpose of accommodations is to provide candidates with full access to the test. Accommodations are not a guarantee of improved performance or test completion. Pearson VUE provides reasonable and appropriate accommodations to individuals with documented disabilities who demonstrate a need for accommodations.

Test accommodations may include things such as:

- A separate testing room
- Extra testing time
- A Reader or Recorder, for individuals with mobility or vision impairments and cannot read or write on their own

Test accommodations are individualized and considered on a case-by-case basis. All candidates who are requesting accommodations because of a disability must provide appropriate documentation of their condition and how it is expected to affect their ability to take the test under standard conditions. This may include:

- Supporting documentation from the professional who diagnosed the condition, including the credentials that qualify the professional to make this diagnosis
- A description of past accommodations the candidate has received

The steps to follow when requesting test accommodations vary, depending on your test program sponsor. To begin, go to <http://pearsonvue.com/accommodations>, and then select your test program sponsor from the alphabetized list. Candidates who have additional questions concerning test accommodations may contact the ADA Coordinator at accommodationspearsonvue@pearson.com.

ENGLISH AS A SECOND LANGUAGE (ESL)

Candidates for whom English is a second language may request additional time for the examination by sending the *English as a Second Language (ESL) Request Form* (found in the back of this handbook). Candidates should include with this form a letter from his or her English instructor, sponsoring company, or **pre-licensing provider** on official letterhead stating that English is not a primary language for the candidate. Candidates should not attempt to make a reservation until after they have been notified by Pearson VUE that their request for additional time has been approved. The approval of additional time will be for the length of the authorization. Candidates who have additional questions about ESL examinations should contact the Special Examination Coordinator at (800) 466-0450.

Candidates who need to reschedule or need to retest should notify Pearson VUE Special Accommodations that special arrangements were used for the prior examination.

EXAM DAY

REQUIRED MATERIALS

Candidates who do not present the required items will be denied admission to the examination, will be considered absent, and will forfeit the examination fee.

WHAT TO BRING

Required Materials

All candidates are required to bring identification that is deemed acceptable, listed under *Acceptable Forms of Candidate Identification*, to the test center on the day of examination.

For Life, Accident and Health or Sickness, Property and Casualty and Personal Lines candidates: *Certificate of Prelicense Course Completion (PL 789E)*, as detailed on page 2.

Primary ID (photograph and signature, not expired)

- Government-issued Driver's License
- U.S. Dept. of State Driver's License
- U.S. Learner's Permit (plastic card only with photo and signature)
- State-issued picture IDs including those non-federated driver's licenses or licenses that say *Not For Federal Identification* are accepted in West Virginia. All IDs should be current and non-expired and contain a photograph of the candidate.

If the ID presented has an embedded signature that is not visible (microchip), or is difficult or impossible to read, the candidate must present another form of identification from the Primary ID or Secondary ID list that contains a visible signature.

Pearson VUE does not recognize grace periods. For example, if a candidate's driver's license expired yesterday and the state allows a 30-day grace period for renewing the ID, the ID is considered to be expired.

EXAM PROCEDURES

Candidates should report to the test center thirty (30) minutes before the examination and check in with the test center administrator. The candidate's identification and other documentation will be reviewed and they will be photographed for the score report.

If the **Candidate Rules Agreement** is not followed and/or cheating or tampering with the examination is suspected, the incident will be reported as such and the appropriate action will be taken. The examination fee will not be refunded, the exam may be determined invalid, and/or the state may take further action such as prohibiting

candidates from retaking the examination and/or denying a license.

Candidates will have an opportunity to take a tutorial on the computer on which the examination will be administered. The time spent on this tutorial will not reduce the examination time. The examination administrators will answer questions, but candidates should be aware that the administrators are not familiar with the content of the examinations or with the state's licensing requirements. Examination administrators have been instructed not to advise candidates on requirements for licensure.

Once candidates are familiar with the computer, they may begin the examination. The examination begins the moment a candidate looks at the first examination question. Candidates will have two (2) hours for the Life and the Accident and Health or Sickness examination, three and one-half (3½) hours for the Property and Casualty examination, two and one-half (2½) hours for the Personal Lines examination, and one (1) hour for the Adjuster and Surplus Lines examination. - Dictionaries, books, papers (including scratch paper), and reference materials are not permitted in the examination room (unless permitted by the exam sponsor), and candidates are strongly urged not to bring such materials to the test center. Upon entering and being seated in the testing room, the test administrator will provide the candidate with materials to make notes or calculations and any other items specified by the exam sponsor. **The candidate may not write on these items before the exam begins or remove these items from the testing room.**

- Eating, drinking, chewing gum, smoking, and/or making noise that creates a disturbance for other candidates is prohibited during the exam.
- Break policies are established by the exam sponsor. Most sponsors allow unscheduled breaks. To request an unscheduled break, the candidate **must** raise their hand to get the administrator’s attention. **The exam clock will not stop while the candidate is taking a break.**
- Candidates must leave the testing room for all breaks. However, candidates **are not permitted to leave the floor or building for any reason during this time, unless specified by the administrator and the exam sponsor.** If a candidate is discovered to have left the floor or building they will not be permitted to proceed with the examination and may forfeit the exam fees.
- While taking a break, candidates are permitted to access personal items that are being stored during the exam only if necessary— for example, personal medication that must be taken at a specific time. **However, a candidate must receive permission from the administrator prior to accessing personal items that have been stored.** Candidates are **not** allowed access to other items, including but not limited to cellular phones, exam notes, and study guides, unless the exam sponsor specifically permits this.
- Any candidate discovered causing a disturbance of any kind or engaging in any kind of misconduct—giving or receiving help; using notes, books, or other aids; taking part in an act of impersonation; or removing examination materials or notes from the examination room—will be summarily dismissed from the examination and will be reported to the state licensing agency. Decisions regarding disciplinary measures are the responsibility of the state licensing agency.

SCORE EXPLANATION

Equating and Scaling

There are multiple versions of each of the licensing examinations. These versions are known as forms. Although all forms of an examination are developed based on the content outlines, the difficulty of the forms of an examination may vary slightly because different questions appear on each form. To ensure that no candidate is put at an unfair advantage or disadvantage due to the particular form of an examination that he or she is given, a statistical procedure known as equating is used to correct for differences in form difficulty. For example, in an examination with two (2) forms, Form A and Form B, the state licensing agency determines that answering 30 questions correctly on Form A demonstrates the minimum amount of knowledge necessary to be licensed. It is further determined through the equating process that Form B contains slightly more difficult questions than Form A; therefore, answering 30 questions correctly on Form A would indicate the same level of knowledge as answering only 28 questions correctly on Form B. Under this set of circumstances, a score of 30 questions correct would be used as the passing score on Form A whereas a score of 28 questions correct would be used as the passing score on Form B.

A second statistical procedure known as scaling is used to derive the numerical score to report for each candidate. Scaling is used to place a raw score on a common reporting scale on which each scaled score represents a given level of knowledge regardless of the difficulty of the form on which the raw score was achieved.

To illustrate how scaling works, suppose that in the examination example used above, the state licensing agency decides to use a score of 500 as the passing score for reporting purposes. (Note that the score selected to be used as the reported passing score is not related to, and has no bearing on, the difficulty of the examination.) Based on the information provided above, a raw score of 30 on Form A would translate to a scaled score of 500; a raw score of 28 on Form B would also translate to a scaled score of 500 since a raw score of 30 on Form A represents the same level of knowledge as a raw score of 28 on Form B.

Scaled Score

The passing score of an examination was set by the West Virginia Office of the Insurance Commissioner. (in conjunction with Pearson VUE) after a comprehensive study was completed for each examination. Raw scores are converted into scaled scores that can range from 0 to 100. The scaled score that is reported to you is neither the number of questions you answered correctly nor the percentage of questions you answered correctly. With a passing score of 70, any score below 70 indicates how close the candidate came to passing, rather than the actual number or percentage of questions the candidates answered correctly. Bail Bonds Exam requires a passing score of 80%.

REVIEW OF EXAMS

For security reasons, examination material is not available to candidates for review.

RETAKE THE EXAM

According to West Virginia Insurance code, §33-12-5. Application for examination, a candidate is limited to eight (8) attempts to pass each line of authority.

Reservations for reexamination cannot be made at the test center, and candidates must wait 24 hours before making a new reservation.

Waivers

Candidates must pass both parts of the licensing exam within 12 months of the date of the first exam portion passed. If both parts of the exam are not successfully passed within 12 months the applicant must take and pass all parts of the exam again.

If a candidate initially takes a combination exam and fails only one part of the exam they are still required to retake that same combined exam. Switching to a single exam will void the previous pass waiver.

Similarly, if a candidate initially takes two single exams and fails one of those exams they are required to retake the same single exam that they failed. Switching to a combination exam will void the previous pass waiver.

DUPLICATE SCORE REPORTS

Candidates may obtain a copy of their score report by logging into their Pearson VUE account. For candidates who tested prior to September 19, 2022, a duplicate score report can be requested by emailing Pearson VUE at pearsonvuecustomerservice@pearson.com.

EXAM SECURITY

Pearson VUE maintains examination administration and examination security standards designed to ensure that all candidates are given the same opportunity to demonstrate their abilities and to prevent some candidates from gaining an unfair advantage over others because of irregularities or misconduct. Pearson VUE routinely reviews irregularities and examination scores believed to be earned under unusual or nonstandard circumstances.

Pearson VUE maintains the right to question any examination score whose validity is in doubt because the score may have been unfairly obtained. Pearson VUE first undertakes a confidential review of the circumstances contributing to the questions about score validity. Then, if there is sufficient cause to question the score, Pearson VUE will refer the matter to the state licensing agency, which will make the final decision on whether or not to cancel the score.

The performance of all candidates is monitored and may be analyzed statistically for the purpose of detecting and verifying fraud. If it is determined that a score has questionable validity, the Department of Insurance will be so notified and will determine whether the candidate's scores will be released.

QUESTIONS OR COMMENTS ABOUT THE EXAM

Candidates who have questions, comments, or concerns about the examinations, or who wish to verify any data held in Pearson VUE files, should direct written inquiries to:

PREPARING FOR THE EXAM

EXAMINATION QUESTIONS

All examination questions, each form of the examination, and any other examination materials are copyrighted and are the property of Pearson VUE. Consequently, any distribution of the examination content or materials through any form of reproduction or oral or written communication is strictly prohibited and punishable by law.

The examination will contain *pretest questions*, on which statistical information is being collected for use in constructing future examinations. Responses to pretest questions do not affect a candidate's score. Pretest questions are mixed in with the scored questions and are not identified.

CONTENT OUTLINES

Each examination is based on a detailed content outline of topics, subtopics, and references to applicable state laws, statutes and regulations. These content outlines are provided to publishers of study materials and to state-approved education providers for their use in developing and updating their educational materials and programs. Content outlines are updated periodically to reflect changes in practice, state laws and regulations. West Virginia offers these content outlines as part of the handbook.

EXAM CONTENT

The content of the general examination is based upon information obtained from a job analysis performed by Pearson VUE. Responses from insurance professionals were analyzed to determine the nature and scope of tasks they perform and the knowledge and skills needed to perform them. This information is the basis upon which examination questions are written and ensures that examinations reflect the practice of insurance. The examination has been developed to reflect the laws, statutes, rules and regulations for the practice of insurance in West Virginia, and has been reviewed and approved by West Virginia insurance professionals.
