

WEST VIRGINIA SECRETARY OF STATE

MAC WARNER

ADMINISTRATIVE LAW DIVISION

eFILED

3/27/2019 4:04:37 PM

Office of West Virginia
Secretary Of State

**NOTICE OF FINAL FILING AND ADOPTION OF A LEGISLATIVE RULE AUTHORIZED
BY THE WEST VIRGINIA LEGISLATURE**

AGENCY: Insurance Commission

TITLE-SERIES: 114-27

RULE TYPE: Legislative Amendment to Existing Rule: Yes Repeal of existing rule: No

RULE NAME: AIDS Regulations

CITE STATUTORY AUTHORITY: W. Va. Code §§33-2-10 and 16-3C-2(j)

The above rule has been authorized by the West Virginia Legislature.

Authorization is cited in (house or senate bill number) SB 545

Section §64-7-4 Passed On 3/2/2019 12:00:00 AM

This rule is filed with the Secretary of State. This rule becomes effective on the following date:

March 27, 2019

This rule shall terminate and have no further force or effect from the following date:

March 27, 2024

BY CHOOSING 'YES', I ATTEST THAT THE PREVIOUS STATEMENT IS TRUE AND CORRECT.

Yes

Allen R Prunty -- By my signature, I certify that I am the person authorized to file legislative rules, in accordance with West Virginia Code §29A-3-11 and §39A-3-2.

TITLE 114
LEGISLATIVE RULE
INSURANCE COMMISSIONER

SERIES 27
AIDS REGULATIONS

§114-27-1. General.

1.1. Scope. -- This legislative rule establishes standards for AIDS-related underwriting questions and AIDS testing in connection with applications for life or health insurance policies.

1.2. Authority. -- W. Va. Code §§33-2-10 and 16-3C-2(j).

1.3. Filing Date. -- March 27, 2019.

1.4. Effective Date. -- March 27, 2019.

1.5. Sunset Provision. -- This rule shall terminate and have no further force or effect upon March 27, 2024.

§114-27-2. Applicability.

2.1. Insurers -- All insurers who deliver or issue for delivery in this state any policies for life or accident and sickness insurance are subject to this regulation.

2.2. Service Corporations -- All health service corporations who deliver or issue for delivery in this state any subscriber's contracts for health insurance are subject to this regulation.

2.3. Health Care Corporations -- All health care corporations who issue to enrollees in this state evidence of health insurance coverage are subject to this regulation.

2.4. Fraternal Benefit Societies:

a. All fraternal benefit societies who deliver or issue for delivery life insurance benefit certificates in this state are subject to this regulation.

b. All domestic, foreign, or alien societies who issue any certificate or other evidence of any contract of accident or sickness insurance in this state are subject to this regulation.

2.5. Health Maintenance Organizations -- All health maintenance organizations who deliver or offer for delivery in this state any evidence of coverage are subject to this regulation.

§114-27-3. Definitions.

3.1. Code -- means the West Virginia Code.

3.2. Commissioner -- means the Insurance Commissioner of the state of West Virginia.

3.3. Acquired Immunodeficiency Syndrome (AIDS) -- means the acquired immuno-deficiency syndrome as may be from time to time defined by the Centers for Disease Control of the United States Public Health Service.

3.4. AIDS Related Complex (ARC) -- means a syndrome in which the individual displays many of the same symptoms of AIDS, including the presence of the HIV antibody.

3.5. Human Immunodeficiency Virus (HIV) means the virus responsible for the potential development of the Acquired Immunodeficiency Syndrome (AIDS).

3.6. Enzyme Linked Immunosorbent Assay (ELISA) -- means a test which has been licensed by the FDA and is used to determine the existence of the HIV antibody.

3.7. Insurer -- includes all entities providing life or accident and sickness coverage.

3.8. Western Blot -- means a test which has been licensed by the FDA and is used to determine the existence of the HIV antibody.

3.9. Health Care Professional or Health Care Provider -- means any physician, nurse, physician's assistant, or any other person providing medical, dental, nursing or other health care services of any kind.

3.10. FDA -- means the United States Food and Drug Administration.

§114-27-4. Medical/Lifestyle Applications Questions and Underwriting Guidelines.

4.1. General Propositions:

a. No inquiry in an application for health accident and sickness or life insurance coverage, or in an investigation conducted by an insurer or an insurance support organization on its behalf in connection with an application for such coverage shall be directed toward determining the proposed insured's sexual orientation.

b. Sexual orientation may not be used in the underwriting process or in the determination of insurability.

c. Insurance support organizations shall be directed by insurers not to investigate, directly or indirectly, the sexual orientation of a proposed insured or beneficiary.

4.2. Medical/Lifestyle Applications Questions and Underwriting Standards.

a. No question shall be used which is designed to establish the sexual orientation of the proposed insured.

b. Questions relating to the proposed insured having or having been diagnosed as having AIDS or ARC are permissible if they are factual and designed to establish the existence of the condition.

For Example: Insurers should not ask "do you believe you may have . . .?", but rather "do you know or have reasons to know . . .?"

c. Questions inquiring as to whether the proposed insured has ever tested positive for the presence of the HIV virus or HIV virus antibodies are permissible; however, questions inquiring as to whether the proposed insured has ever been tested for the presence of the HIV virus or HIV antibodies are prohibited.

d. Questions relating to medical and other factual matters intending to reveal the possible existence of a medical condition are permissible if they are not used as a proxy to establish the sexual orientation of the proposed insured, and the proposed insured has been given an opportunity to provide an explanation for any affirmative answers given in the application.

For Example: "Have you had chronic cough, significant weight loss, chronic fatigue, diarrhea, enlarged glands, . . .?" would be permissible. These questions must relate to a definite time period immediately preceding the application and must be specific. The proposed insured shall be given the opportunity to explain the described symptoms.

e. Questions relating to the proposed insured's having or having been advised to seek treatment by a medical doctor, health nurse or other medical professional for a sexually transmitted disease are permissible.

f. Neither the marital status, the "living arrangements," the occupation, the gender, the medical history, the beneficiary designation, nor the zip code or other territorial classification of a proposed insured may be used to establish, or aid in establishing, the proposed insured's sexual orientation.

g. For purposes of rating a proposed insured for health and life insurance, an insurer may impose territorial rates, but only if the rates are based on sound actuarial principles and are related to actual or reasonably anticipated experience.

For Example: If a particular territory demonstrates a general propensity for high risk, an insurer may impose a rate higher for that territory than for similar risks located in other territories.

h. No questions shall seek to determine if the proposed insured has demonstrated AIDS-related concerns or has sought AIDS-related counseling.

i. No adverse underwriting decision shall be made because medical records or a report from an insurance support organization show(s) that the proposed insured has demonstrated AIDS-related concerns or has sought counseling. This subsection does not apply to a proposed insured seeking treatment and/or diagnosis.

§114-27-5. Testing.

5.1. AIDS- related testing in connection with the application for group life or accident and sickness insurance is prohibited; provided that an insurer may conduct such testing in relation to the application for group life and accident and sickness insurance when the insurance applied for is individually underwritten and evidence of insurability is required by the insurer because the proposed insured is either a late entrant, is applying for supplemental group life coverage, or is applying for small group insurance where the group consists of less than twenty-five members.

5.2. Whenever a proposed insured is requested to take an AIDS-related test in connection with an application for insurance, the use of such a test must be revealed to the proposed insured and his or her written, informed consent obtained.

5.3. The proposed insured should demonstrate an understanding that the test is being performed, of the nature of the test, of the persons to whom the results of that test may be disclosed, of the purpose for which test results may be used, of any limitations on the accuracy and meaning of the test results, and of any foreseeable risks and benefits resulting from the test.

5.4. The person requesting the test, and not the individual or individual's health care provider, must underwrite the cost of the test.

5.5. The individual undergoing the test has a choice to receive the test result directly or to designate in writing, prior to the administration of the test, any other person, such as a health care professional or clergyman, who may receive the results.

5.6. The testing must be performed by an individual who is properly trained in the administration of the test; holds an appropriate medical license, if state or federal law requires licensure in order to perform the testing procedure; and is properly supervised in accordance with state and federal law and FDA approval requirements.

5.7. The insurer and its agents shall not release or disclose either that a HIV test has been conducted or the test results to any other party except under the following limited circumstances:

a. Negative test results only may be disclosed to a reinsurer where either:

1. The reinsurer is to reinsure a portion of the risk on a facultative basis; or
2. The reinsurer is to reinsure a portion of a block of business on a treaty basis and where the release of HIV test information is disclosed by the ceding insurer only to the extent that the reinsurer is permitted to perform limited underwriting audits of the ceding insurer's underwriting files to verify that proper HIV underwriting has occurred.

b. Positive test results only may be disclosed to the Medical Information Bureau (MIB) provided that such information release is limited to a coded report identified only as a nonspecific abnormal blood, urine or oral fluid test code.

c. To the extent necessary to allow them to properly perform the functions for which their services were contracted by the insurer, an insurer may disclose HIV test information to certain contractors of the insurer such as audit firms, third party underwriters and claims adjusting firms. No person receiving HIV test information shall transmit information further, and each person shall maintain strict confidentiality.

d. To the extent that they are otherwise entitled to access to the insurer's files, government agencies may be permitted access to files containing HIV test information: Provided that confidentiality is maintained and the HIV test information is not shared with other persons.

5.8. Upon written request by the individual undergoing the test the insurer must provide within 30 days, a written list of all persons or entities to whom test information has been released or caused to be released by the insurer.

5.9. The testing is required to be administered on a nondiscriminatory basis for all individuals in the same underwriting class. No proposed insured may be denied coverage or rated a substandard risk on the basis of HIV testing unless acceptable testing protocol is followed including the use of FDA-licensed tests.

5.10. If any confirmatory test produces a negative result, the testing ceases and the proposed insured cannot be denied coverage based on AIDS-related testing.

5.11. News of a positive test result could result in serious emotional trauma to the proposed insured. For this reason, it is recommended that the insurer recommend to the proposed insured that positive

results be communicated to the proposed insured face to face by a qualified health care professional who could provide AIDS counseling.

§114-27-6. Notice and Consent Form.

6.1. A notice and consent form must be executed by each proposed insured before AIDS-related testing is performed as to such proposed insured on behalf of any insurer.

6.2. The notice and consent form required by subsection 6.1 shall be as is set out in Appendix A attached hereto unless an alternative form is approved by the commissioner in writing.

APPENDIX A

Examiner _____ Insured _____

Address _____ Address _____

**NOTICE AND CONSENT FOR BLOOD, URINE, OR ORAL FLUID TESTING
WHICH MAY INCLUDE AIDS VIRUS (HIV) ANTIBODY/ANTIGEN TESTING**

To determine your insurability, the insurer named above (the Insurer) has requested that you provide a sample of your blood, urine, or oral fluids for testing and analysis. All tests will be performed by a licensed laboratory.

Tests may be performed to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV), also known as the AIDS Virus. The HIV antibody test that we perform is actually a series of tests done by a medically accepted procedure. The HIV antigen test directly identifies AIDS viral particles. This series of tests is extremely reliable. Other tests which may be performed include determinations of blood cholesterol and related lipids (fats) and screening for liver or kidney disorders, diabetes, and immune disorders.

All test results will be treated confidentially. They will be reported by the laboratory to the Insurer. When necessary for business reasons in connection with insurance you have or have applied for with the Insurer, the Insurer may disclose test results to others such as its reinsurers, employees, or contractors. If the Insurer is a member of the Medical Information Bureau (MIB, Inc.), and if the test results for HIV antibodies/antigens are other than normal, the Insurer will report to the MIB, Inc. a generic code which signifies only a non-specific test abnormality. If your HIV test is normal, no report will be made about it to the MIB, Inc. Other test results may be reported to the MIB, Inc. in a more specific manner. The organizations described in this paragraph may maintain the test results in a file or data bank. There will be no other disclosure of test results or even that the tests have been done except as may be required or permitted by law or as authorized by you. If you desire, you have the right to request a complete list of the parties to whom the insurer has released test information.

You should also be aware that the person who performs the blood, urine or oral fluid testing is subject to W. Va. Code §§16-3C-3 and 16-3C-4 which authorize that they may disclose test results to certain limited individuals under certain limited circumstances [these relate primarily to (1) persons you authorize to see the test results, (2) health care providers who may come into contact with you or specimens obtained from you, (3) the United States centers for disease control, (4) a court order to release the results, and (5) identified sex partners and persons sharing needles.] These persons are required by W. Va. Code §§16-3C-3 and 16-3C-4 to keep test information confidential.

You may direct that test results be disclosed directly to you or if you prefer to your personal physician or other health care professional. It is strongly suggested that you designate a physician or health care professional to receive your test results so that they may properly explain the results to you.

APPENDIX A

If your HIV test results are normal, no routine notification will be sent to you. If the HIV test results are other than normal, the Insurer will contact you. The Insurer may also contact you if there are other abnormal test results which, in the Insurer's opinion, are significant. If you have not already indicated one, the Insurer may ask you at that time for the name of a physician or other health care provider to whom you may authorize disclosure and with whom you may wish to discuss the results.

Positive HIV antibody/antigen test results do not mean that you have AIDS, but that you are at significantly increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody/antigen positive should be considered infected with the AIDS virus and capable of infecting others.

Positive HIV antibody or antigen test results or other significant abnormalities discovered in the body fluid sample tested for the presence of HIV will adversely affect your application for insurance. This means that your application may be declined, that an increased premium may be charged, or that other policy changes may be necessary.

APPENDIX A

I wish my test results to be released to:

(Check Please)

_____ Myself only.

_____ My physician, health care provider, or other person indicated below.

_____ Both myself and my physician, health care provider or other person indicated below.

Physician, Health Care Provider, or other person.

Name: _____

Address: _____

I have read and I understand this Notice and Consent For Blood, Urine or Oral Fluid Testing Which May Include AIDS Virus HIV Antibody/Antigen Testing. I voluntarily consent to give a urine or oral fluid specimen and/or to the withdrawal of blood from me, the testing of that urine and/or blood or oral fluid, and the disclosure of the test results as described.

I understand that I have the right to request and receive a copy of this authorization. A photocopy of this form will be as valid as the original.
