SCOPE OF EXAMINATION

The examiners have performed a multi-state financial examination of the Company. The last examination covered the three-year period from January 1, 2013 through December 31, 2015. In such cases, these matters were discussed with responsible Company officials during the course of the examination.

COMMENTS ON FINANCIAL STATEMENT ITEMS

Accrued Retrospective Premiums $18,216,081

The amount of $18,216,081 represents an adjusted balance as a result of this examination, which was decreased by $2,253,344 from the original balance of $20,469,425 reported on the filed 2018 Annual Statement. The adjusted amount is based on actual settlements with CMS in subsequent period, and included two components:

1. Risk sharing balance which was originally estimated to be a receivable of $1,295,579. However, the Company paid $73,707 to CMS in 2019 related to risk sharing component. This resulted in reduction of Accrued Retrospective Premiums by $1,369,287.
2. The Company estimated its risk adjustment amount to be $19,173,846. However, it collected $18,289,808 from CMS in 2019. This resulted in a reduction of Accrued Retrospective Premiums by $884,057.

Aggregate Health Policy Reserve $12,822,810

The amount of $12,822,810 is an adjusted balance as a result of examination, which increased by $11,0736,505 from $1,086,305, as originally reported in the Company's 2018 Annual Statement. Part of the originally reported balance was $463,495 reserve attributed to premium deficiency reserve ("PDR"). Exam adjustment was due to the appointed actuary's review of methodology and assumptions used in calculation of PDR. The adjusted amount was attributed to the following factors:

1. Due to anticipated overall gains for the Medicare Advantage blocks based on the 2019 bid pricing, the Company's actuary did not perform a detailed Gross Premium Valuation ("GPV") for the Medicare segment. However, historically, the Company reported underwriting losses for this line of business, and the Company should have performed a full GPV analysis. Based on exam actuary's review of the losses and investment gains, the 2018 reported PDR was understated by an estimated $1,200,000.
2. For Medicaid block of business, the Company's PDR analysis estimated the reserve at $463,496. However, based on review of the factors and methodology used in estimation of PDR for this line, the exam actuary concluded that the Company did not use appropriate administrative expense factor, nor did the actuary use claims assumptions based on historical performance of the Medicaid contract. Based on the actual January to June 2019 Medicaid results, the exam actuary concluded that the Company should have reserved approximately $11,000,000 for this line of business.

The exam actuary's estimate of PDR was $12,200,000. Considering the initial PDR reserve of $463,495, the Company understated its PDR by $11,736,505.

SUBSEQUENT EVENTS

Beginning in December 2019 in China and progressing to the United States in March 2020, the coronavirus (SARS-CoV-2), also known as COVID-19, reached pandemic status on March 11, 2020 per the World Health Organization. In efforts to slow the spread of COVID-19, the Federal Government along with various state governments and local municipalities have strongly encouraged and/or mandated work, school and travel restrictions along with mass "non-essential"

business shutdowns. These actions have brought the US economy to at or near a grinding halt. As a result, the entire US economy, including the US stock market, has experienced significant deterioration. At the exam report date, the extent of short and long-term detrimental impact upon insurers, particularly workers' compensation insurers, as well as the US and global economy as a whole, remains unknown.

SUMMARY OF EXAMINATION RECOMMENDATIONS

1. It is recommended that the Company amends its Agreement and adopts a method that yields the most accurate results, as required by SSAP 70.

2. It is recommended that the Company comply with the SSAP 26R and SSAP 30, and record its investment for OTTI on a quarterly basis.

3. It is recommended that the Company's actuary perform a full PDR analysis for Medicare block of business. Additionally, for Medicaid line, it is recommended that the actuary use administrative expenses that are consistent with the current administrative services agreement in place, and appropriate claims adjustment expenses reflecting projections consistent with recent results.

4. It is recommended that the actuary include the following information in the Actuarial Opinion: reliance statements for data and/or calculations provided by other employees or outside Company vendors; indicate when only a portion of an Annual Statement line is being opined on. Additionally, it is recommended that the actuary include the following information in the Actuarial Memorandum: both narrative and technical components for all reserves and assets upon which he is opining; provide a reconciliation of the data used for the analysis to the U&I Exhibit Part 2B for all lines of business.

5. It is recommended that the Appointed Actuary include the Medicare Risk Adjustment Receivable in future opinions.

Dear Mr. Dodrill:

Regarding the significant findings identified in The Health Plan of West Virginia, Inc. (the Company) Report of Examination as of December 31, 2018, the following are Management's responses:

Significant Findings and Management's Response

1. The Company's Administrative Services Agreement was not in compliance with SSAP 70, in that the allocation of expenses does not yield the most accurate results.

   Management's Response
   The Company agrees that the Administrative Services Agreement (ASA) in place during the examination period did not contemplate the growth and additional administrative expenses associated with THP Insurance Company's third party administration (TPA) business. In 2020, the Company will revisit and amend the ASA to ensure that the administrative expenses associated with each individual line of business (fully-insured and TPA) are appropriately allocated and cross-charged between legal entities in accordance with SSAP 70. The Company notes, however, that for all years under examination, the financial statements filed with the West Virginia Offices of the Insurance Commissioner (WVOIC) reflected the terms of the ASA in place and on file with the WVOIC.

2. The Company did not record its other than temporary impairment, if any, in accordance with SSAP 26R and 30 on a quarterly basis.

   Management's Response
   While the Company has historically evaluated its investments for other than temporary impairment on a quarterly basis, it has not recorded any impairment due to immateriality. Going forward, the Company will evaluate and record any other than temporary impairment on a quarterly basis in accordance with its accounting policy.

3. The Company's methodology and assumptions to calculate its premium deficiency reserve ("PDR") were found to be deficient for Medicaid and Medicare lines of business.

   Management's Response
   While the Company considers the methodology and assumptions used in developing its December 31, 2018 premium deficiency reserve to be reasonable, appropriate, and in accordance with actuarial and accounting standards, the Company will evaluate all assumptions used in future premium deficiency reserve calculations for appropriateness, including the seasonality of results, as it has done historically and will complete a gross premium valuation for its Medicare Advantage line of business, if necessary, based on financial performance.

4. The 2018 Actuarial Opinion and 2018 Actuarial Memorandum did not meet the NAIC Annual Statement instruction requirements in several regards.

   Management's Response
   The Company agrees and as a result, completed its 2019 Actuarial Opinion and Memorandum in accordance with the NAIC Annual Statement instructions.

5. The Appointed Actuary did not opine on the Medicare Risk Adjustment Receivable.

   Management's Response
   The Company agrees and as a result, the Appointed Actuary opined on the Medicare Risk Adjustment Receivable in its 2019 Annual Statement.

We appreciate the opportunity to work with the WVOIC on these matters. If there are any questions or concerns about our responses, please feel free to contact me.

Sincerely,

Jeffrey M. Knight, Interim President and Chief Operating Officer
